

## STUDIO EXPLORATIONS

# WEIRD STILL LIFE

Everybody bring in 10 objects with interesting colour, shape, texture or otherwise. Something you would not normally consider beautiful. Feel free to make your objects as well, out of clay, paper, plasticine etc...

Choose a surface: plinth, colored paper, light box or other.

Arrange or stack a selection of these objects, light and photograph. How are you making your choices? By colour, theme, shape, or randomly?

Check out these for Inspiration:
